Sprint car racing is a very emotional sport; therefore, good sportsmanship is the cornerstone on any competitive racing program. This must include respect for all participants - drivers, owners, pit crews, and officials. For our part we will try to be consistent with our rules no matter what or who is involved. We will treat all participants with respect and expect similar treatment in return. A racer's Pit area is his castle - therefore please stay out of other racer's pit area.

### **STAGING RULE (AIR HORN RULES)**

1. Before each event an 8 minute horn blast will be sounded to remind you that you have 8 minutes to be in staging or your event. After 4 minutes a two horn blast will be sounded to tell you that you have 4 minutes to present your car to staging for your scheduled race. The final horn blast indicates that you **MUST** be in staging for your event, if not you will be moved to the **rear of the field** for your scheduled race.
2. An eight minute Horn Blast will indicate that you must be in staging for **wheel pack**. If your car is not in staging at the final horn blast you will receive one qualify lap at the end of the qualify session, and you start no better than 9<sup>th</sup> in the A-Main, after the dash qualifiers.
3. The staging rules are in place to keep the races moving, avoid down time, and to avoid curfew issues. The timely staging of events improves the program, gives competitors maximum racing time, and allows for courtesy time during events.

## SECTION 3

### GENERAL LAP COUNTS

Total Lap Counts can be changed at each venue due to conditions not under the series control. The officials will do their best to complete all advertised laps. Any changes to lap counts will be announced, posted on the pit board and/or track officials will notify competitors on the racing surface.

#### TRACK

Heats: 10 Laps

A Main: 30 Laps

#### CALISTOGA

Heats: 8 Laps

Dash: 6 laps

C Main: 8 Laps

### QUALIFYING SHOW

1. Numbers will be drawn at or near the lineup board. All numbers are to be drawn prior to drivers meeting. Anyone not drawing will be placed at the front or rear of the qualifying. Qualifying positions will be determined by drawing a number. The lowest number will be out first. The first qualifier will receive one free lap, before going green for two laps back to back.
2. If a car misses his/her drawn qualification position by more than two cars; or if they elect to run one lap at the end; or if both laps are illegal due to exceeding the sound requirements of the racetrack; the best starting position they will receive is behind the dash cars in the "A" main event and not be in the dash.

### LOW CAR COUNT

1. Car counts of 21 cars or less, the "A" Main line-up will be with dash finish cars then all remaining cars straight up by qualifying time. No "B" Main will be ran.  
**Example:** fast time and second fast did not transfer, it would be the dash cars followed by fast time then second fast and the remaining field.
2. The number of heats will be determined at the drivers meeting.

### QUALIFYING

1. Competitors will be allowed to draw a qualifying number prior to drivers meeting. If you arrive late for the draw you will be placed at the front or rear of the qualifying order or be penalized one lap, whichever would keep from giving the late car an unwarranted competitive advantage.
2. Qualifying will be 2 laps, back to back, with the first car out receiving a courtesy lap.
3. Once any car trips the timing light twice, he/she will be done whether he completes the laps or not. **THE ONLY EXCEPTION TO THIS RULE WILL BE IN THE EVENT OF A MALFUNCTION WITH THE TIMING EQUIPMENT/TRANSPONDER OR IF A CAR WAS INTERFERING WITH ANOTHER CAR'S QUALIFYING RUN.**
4. Any car that misses a lap, and is being given another legal attempt, will be sent back out as close as possible to their original spot, not at the end.
5. Any car that, in the opinion of the track officials, pushes off for qualifying and fails to fire until he/she passes the flag stand in an attempt to receive an extra momentum lap, will receive a checkered flag after his/her first lap on the clock.
6. Any car that has a mechanical problem, either before or during his/her qualifying run, will have 2 car positions to have it fixed without being penalized if he has not started BOTH laps.
7. Any car that cannot make their qualifying run will be placed in the back of the heat or the back of a consolation race as a DQ. A maximum of 48 cars will start heat races. If you miss your qualifying position by more than 2 cars you will be given 1 lap at the end and regardless of time you will be positioned no better than behind the dash cars in the "A" main (no penalty in the

- semi-main, you will receive time recorded).
8. Any car that misses their spot by more than 2 cars, or exceeds the maximum sound level allowed, will be penalized in the "A" main. The best they can start is behind the dash finish. This penalty will also eliminate qualifying points for that car owner and driver.
  9. It is your responsibility to be at the race track on time and have a representative at the drivers meeting. Anything covered at the drivers meeting applies to all competitors. Arriving late does not release you from compliance.
  10. Driver can qualify only one car for the program. In the event that a driver is injured, a non-qualified substitute driver will start at the rear of the field regardless of qualifying position. (Non-qualified driver must not have qualified a car for the program).
  11. All cars will be required to run the mufflers used for qualifying for the remainder of the program unless damaged in an accident.

## **HEATS**

1. The top four (4) in each heat race will be inverted by their qualifying times, with heat one's fourth place car being the fast qualifier. The following example line-up is for a four-heat program. The numbers illustrated below refer to the qualifying positions of each car.
2. If 18-27 cars there will be (3) heats...28 or more cars there will be (4) four heats. The top five finishers in the three heat race format qualify for the A-Main. The top four finishers in the four heat race format qualify for the A-Main.

<b>HEAT 1</b>	<b>HEAT 2</b>	<b>HEAT 3</b>	<b>HEAT 4</b>
13-9	14-10	15-11	16-12
5-1	6-2	7-3	8-4
21-17	22-18	23-19	24-20
25-29	26-30	27-31	28-32
33-37	34-38	35-39	36-40
41-45	42-46	43-47	44-48

If an event is delayed (weather or track condition) and qualifying has to be cancelled, heat races will be lined up according to original pill draw of that night.

## **TROPHY DASH**

1. The top three finishers in each heat race qualify for the dash. Three heats: Nine-car dash. Four heats: 12-car dash. The dash will be inverted by a pill draw.

## **"C" MAIN**

1. They will be lined up by their qualifying times with no inversion.
2. We will transfer 2 cars from the "C" to the "LCQ".
3. The 2 transfers will line up in the "LCQ" and get their time back.

## **LAST CHANCE SHOWDOWN**

1. The Last Chance Showdown will consist of the next 16 fast cars that did not make "A" main. They will be lined up by their qualifying times with no inversion.
  - a. Depending on car count 7 cars will transfer in 3 heat format and 6 cars in 4 heat format.
2. Top 2 finishers will get their time back behind dash cars and balance of the LCQ transfers tag back of "A" main by finish.

## **"A" MAIN**

1. Dash cars line-up by finishing positions in the dash (first nine positions or first 12 if four heat

racers are run). The Dash winner will get to choose which side they wish to start (inside or outside) at initial start. If no lap is completed they must keep spot the chose.

2. Top 2 from "LCQ" main will get their time back behind dash cars and balance of the LCQ transfers tag back of "A" main by finish.
  - a. If no "LCQ" Main is ran the next 14 cars after dash cars will line up according to their qualifying time.

## **PROGRAM FORMAT: DRAW SHOW**

### **(If found applicable by Director of Racing Competition)**

1. Draw for heat race position. The pole position on heat 1 will be the lowest number that was drawn. The pole of heat 2 will be the second lowest number drawn, and alternating across heats until line-ups are complete. Cars arriving after wheel-pack has begun will be placed at the back of a heat in the next open spot.
2. Top 4 finishers in each heat race will go to the "A" main, lined up by their finishing positions. Winner of heat 1 will be pole of "A" main and winner of heat 2 will be outside front row before inversion is drawn.
3. Depending on total car count, number of transfers from the heats and semi-mains could vary to fit program.
4. The next 4 finishers from each heat will go to the "B" main, lined up by their finishing order from the heat race there will be no inversion for the "B" main, four transfers from the "B" will tag the rear of the "A" main.
5. All lap counts and time limits will be posted on the pit board prior to each event and will be adjusted accordingly to the total number of cars in division.
6. We will run at least 2 heats if total car count is 10 or more. We will run 3 heats when car count is 18 to 27 cars and will run 4 heat races when car count reaches 28 or higher. When 4 heat races are run, we will have a 22 car feature event.
7. The inversion will be a 1, 2, 3, or 4; first, second, third, and fourth place finishers. The inversion will be drawn by the winner of the first heat.

## **SECTION 4**

### **FLAGS**

*Driver who does not obey the flag rules will be subject to lap penalties, time penalties, disqualifications and/or be fined.*

### **ORIGINAL START**

1. Initial starts will be double-file at the designated area (cone), with the cars side-by-side and nose to tail in rows of two throughout the field. The leader of the race needs to set the pace and starts the race at the designated area (cone). The winner of the Dash will be able to choose inside or outside when field is called to go double file. Only the front row will change positions no other rows will at the original start. In the event of a false start, the race will be called back by going yellow. Once the pace is set from middle of back straight all cars will maintain that pace until the start of the race. If a car starts early, or if a car slows after the pace has been set and creates a bad start, one or both cars will be placed back one (1) rows by the call of the director of competition. If we fail to get a good start after the third attempt, we will start in a single file in turn four by original line up.
2. If more than three (3) cars are involved in a wreck on the original start, it will not be counted toward their two (2) spin penalty for the race.
3. A car will be given credit for the green flag start, if that car was on the track *to present themselves*.

4. In the event of going yellow or red on the original green lap, we will revert to the original crossed-up lineup. With those cars involved going to the back and sliding rows forward to fill the order. No car will be allowed to gain more than two (2) positions by sliding forward; if more than two (2) positions are gained by sliding forward, we will re-cross the line-up instead. (If three (3) or more cars involved will not be charged with this flag for purpose of the two stop penalty).
5. A competitor will be allowed a maximum of two attempts to push off to start any race and still retain their starting position. However if the car goes to the work area it will start at the rear of the field. **THIS IS A COURTESY DON'T ABUSE IT!!**
6. Once the field of cars is on the track and lined-up, any car that is missing will be given a one-lap grace period to make the race in their original starting position, after that they will tag the rear or miss the race, if they don't take the original green; they will not be allowed to run that race at all.
7. You must be in the lane (in line to push depending on track) ready to be pushed.
8. All cars that make contact and stop on the track as the result of an accident will restart in the rear. Any car that does a 360 will bring out a yellow will start at rear. Any car(s) involved in bringing out a yellow or red, period, whether making contact or not, will restart in the rear. Any car spinning out or stopping without making contact, in an attempt to avoid an accident, which has already brought a yellow, will restart in the rear. All cars restarting in the rear because of a yellow condition will be lined up in the order they were running on the last lap.
9. Any cars spinning out and bringing out the yellow or red flag – on their own – two times(2) in heat race action and two (2) times in the main event will be disqualified from that event. Any car that deliberately stops on the track to bring out the yellow flag will be penalized one lap, with the exception of personal safety.

## **RESTARTS**

1. All restarts will be **SINGLE** file after the completion of the first lap of competition in any race
2. A cone zone shall designate the restart area that will be identified at the drivers meeting. Once the pace is set from middle of back straight all cars will maintain that pace until the start of the race. The race leader will have the choice of starting at an area between turn three (3) and a cone in the turn four (4) area. No passing is allowed until cars pass the cone on the front straightaway (right side of cone.)
3. Under yellow-flag conditions the field goes to a single-file grid. The grid must remain single-file and nose-to-tail until the race is started in the designate start area and may not pass until reacing the cone on the front straightaway (on the right).
4. The race leader sets the paces and is the control car. The race leader restarts the race inside the designated starting box.
5. All single-file restarts will take place at a consistent speed in the designated area, with cars nose-to-tail throughout the field. Consistent speed will be at the discretion of the KWS-NARC officials. Any car out of line and/or passing before this point will bring out a caution period and will be penalized two (2) positions on the ensuing restart. If an offending car is located on the last row of the starting grid than that car is allowed to restart but will be penalized two (2) positions from its finishing position. If the same car commits a second offense it shall be disqualified from that event.
6. In the event that a race is not properly started by the leader, that car will be moved to the second row. Failure to acknowledge and comply with the "move back" signal will result in instant disqualification from the racing event.
7. All restarts will take place with the lead lap cars moved to the front of the field. Lapped cars will pull to the inside and fall in behind the last car on the lead lap in their order of running.
8. All cars from previous completed lap must complete lap for the lap to count.
9. On Single file restarts, all cars must be nose-to-tail, the start of the race will be when the leader starts in the designated area. Everyone else must maintain nose-to-tail position until they pass

the cone on the front straightaway. If you are out of line on the restart there will be a two (2) position penalty for not maintaining nose-to-tail.

10. If the leader is unable to properly restart the race after one (1) attempt, the leader will be penalized two (2) positions.
11.
